Product	Name	Reg. no.	Category
	NORTEXT Mathematic Composition Package	211298A	STNC

Reason	X New product . Error Correction . Change/Addition . Different Environment
Documentation	Title Reg. no. NORTEXT Mathematic Composition Package 61.060.1EN
Purpose	Formats for composing mathematic formulas in NORTEXT.
Prerequisites	Computer Type Floating format Op. system Version ND-500(0) SIN III VSX K
	Reg. no. Product name 211030L NORTEXT Editor for ND-500, version >= L03
	Minimum mass storage resources for installation User Userspace Number of files Legal NTX-user 154 pages on 1 file
	Minimum mass storage resources permanent User Userspace Number of files Legal NTX-user 154 pages on 1 file
	Reg. no. for Source None

Directory Name: 211298A<rev>-XX-01D User Name: FLOPPY-USER

File Name	Type	Containing
MCP-FORMAT-A<rev>	DATA	Formats

NOTE: <rev> is to be replaced by the current version of the DIRECTORY or FILE. The revision level is found on the preceding "ND SOFTWARE LIBRARY DISKETTE" pages.

1 THE PRODUCT

The format package contains a set of format for composing mathematic formulas on phototypesetters and PostScript laser printers.

2 CUSTOMIZE

Before utilization, the setup parameters described for each format should be adjusted to fit the fonts and pointsizes normally used for mathematic formulas.

3 PHOTOTYPESETTER REQUIREMENTS

1) The phototypesetter ought to work in increments of 1/10 of a point for pointsize and leading.

2) Mathematical symbols like integral, root, sum, parenthesis, brackets etc., are all made up by using pointsize and setwidth. The phototypesetter should therefor be able to mix pointsize and setwidth without any range restrictions.

4 INSTALLATION PROCEDURE

1) Log in as a legal NTX-user

2) Enter the directory on the floppy diskette
   211298A<rev>-XX-01D

3) Use the BACKUP-SYSTEM to copy the format file
   from the floppy diskette to the disk.

4) Activate the format file in the parameter file:
   (PARAMETERS-NTX)NTXWP-PARAM:NTWP

5) Delete and load LAMU.
