PRODUCT INFORMATION

Product name

XNOTIS TDV2200 Terminal Emulator
for X-Windows

Product number

211732A

DESCRIPTION OF PRODUCT

XNOTIS is a terminal emulator running in the X-window system. This product emulates the Tandberg 2200/9s terminal with all its character sets and functionality.

REASON(S) FOR NEW PRODUCT OR VERSION

To be able to run applications in SINTRAN without loosing the Notis functionality on X terminals.

4 INSTALLATION PROCEDURE

This product is distributed on a standard streamer tape using the tar format.

4.1 NON-AUTOMATIC INSTALLATION

To install XNOTIS on all platforms, please do as follows:

- Log in as Superuser. (Usually root)

- cd <tmpdir>

where <tmpdir> is a temporary directory (usually /tmp) with enough space.

- tar xvf <tapedevice>

where <tapedevice> is:

Platform	tapedevice
Sun 3/60	/dev/rst8
Uniline20	/dev/rct0
Uniline88	/dev/rmt/ctape
Uniline88 WS	/dev/rmt/0

- cd xnotis

- ./install <platform>

where <platform> is:

System	platform
Sun 3/60	sun3
Uniline20	uni20
Uniline88	uni88
Uniline88 WS	uni88ws

The next step will remove the installation directory and all its files. This step is optional.

- cd <tmpdir> (tmpdir as specified above)
rm -r -f xnotis

XNOTIS is now installed and ready for use. Please refer to the manual page for options.
